

Exclusive Manufacturer's List for the Province of Quebec, Industrial Market

- Biolac® Fine Bubble Aeration Diffusers for facultative lagoons and extended aeration activated sludge process
- AquaGuard® Fine and Coarse Screens, Hycor® Rotating Drum and Side Hill Screens
- DynaSand® Continuous Backwash Filters
- Ecoflow™ Lamella Clarifiers
- Hycor® ThickTech™ Rotating Drum Thickeners

- Delta Blower Generation 5 Tri-Lobe Positive Displacement Blowers
- High Speed Turbo Blowers
- Delta Hybrid Rotary Lobe Compressors
- Biogas Blowers, Vacuum Pumps and Oil Free Screw Compressors

- Fine Bubble Diffusers, Disk or Tube type with EPDM, fEPDM or PTFE Membranes
- Coarse Band Diffusers
- Replacement Diffuser Membranes for most brands

- Dissolved Air Flotation Units for Industrial Processes and Effluent Treatment
- PLC Serie High Performance Vertical DAF Units with internal plate packs
- PWL Serie, Low Built DAF Separators
- Pressurized Flocculators, Saturators and Oil Separators

- Advanced Low and Medium Pressure UV Technologies for Industrial Applications
- Water Disinfection in Food, Beverage, Microelectronic, Life Science, Pharmaceutical, Fish Hatcheries and Wastewater
- TOC Reduction, Chlorine, Chloramines and Ozone Destruction

- Pneumatic Conveying
- Silos, Super Bags and Individual Bags Handling Systems
- Wet Cone Mixers and Ejectors (Lime, Activated Carbon, etc)
- Chemical Dry Feeders
- Dry Polymer Preparation Systems
- Sludge Screw Conveyors and Spreaders

- ROTAMAT® RoSQ3 and RoS3 Screw Presses for Dewatering of Municipal and Industrial Sludges
- ROTAMAT® RoK 4 M Vertical Fine Screens for Pumping Stations
- RakeMax® MultiRake Bar Screens for Coarse and Fine Screening for Deep Channels

- Rotary Lobe Pumps
- Multichoppers for Sludge and Grinders for Wastewater
- Screw Feeders for Solids

- Westfalia Centrifuges for Sludge Thickening and Dewatering

- Metso TS Sludge and Solids Measurement Transmitters for Total Solids up to 40%
- Metso LS Filtrate Measurement Analyzers for Total Solids up to 5000 mg/l

- Chemical Odor Control Multistage Scrubbers
- Organic and Inorganic Media Biofilters
- Activated Carbon Adsorption Towers
- Recov'ammonia™ Ammonia Recovery Systems and Recov'air™ Energy Recovery Systems
- H₂S, NH₃, CO₂, and COV Stripping Systems

- Hyperboloide Mixers and Mixers / Aerators
- Mixers for Flocculation and Flash Mixers
- Mixing and Aeration Systems

- Ecoprocess SBR Sequencing Batch Reactors
- Atara and AirOmega Air Diffusers
- Oxijet Self Aspirating Aerators
- Ecoprocess MBBR Moving Bed Biofilm Reactors

- Biomag and Comag Magnetite Processes
- Envirex Primary and Secondary Clarifiers
- Rex and Link Belt Traveling Water Screens
- Jpress Filter Presses
- JetMix™ Vortex Mixing Systems

- Automatic Self Cleaning Filters 10-3500 microns
- Arkal Automatic Disc Filters, 20-400 microns
- EBS High Flow Filters with Automatic Backwash, 0,01- 0,8 mm
- ABF Self Cleaning Coarse Filters with Brushes, 0,2-3,5 mm
- Filtomat AMF2 Microfilters 2-20 microns

- Density Current Baffles for Secondary Clarifiers
- Launder Covers for Clarifiers
- Troughs, Weirs and Scum Baffles for Clarifiers

- Lagoon Floating Baffles
- Clearwell Floating and Fixed Baffles

- Microfiltration, Ultrafiltration and Nanofiltration Tubular Membrane Systems for Industrial Processes
- FYNE® Tubular Nanofiltration Systems for Surface Water

- Wastewater Fine Step Screens with 0,5 to 6 mm openings
- Washpress and Hygienic Bagging Systems
- Septage Stations for Septic Sludge Screening
- Anaerobic Digesters and Mixing Systems
- Modular tube-in-shell Heat Exchangers
- Shaftless Screw Conveyors

- Phoenix Filter Underdrain Systems
- Phoenix Panel Systems
- Phoenix Air Scour Systems
- Phoenix Backwash Troughs
- Optimized Filter Media, Puracite Filter Anthracite

- HeadCell®, Grit King®, SlurryCup® and TeaCup® Free Vortex Grit Systems
- GritSnail® Grit Separation and Washing
- Vortex Drop Shaft Systems

- Screw Pumps for Installations in Concrete or Prefabricated Channels
