

Exclusive Manufacturer's List for the Province of Quebec, Municipal Market

- Ultrapulsator® High Rate Solids Clarifiers
- Aquadaf® Dissolved Air Flotation High Rate Clarifiers
- Monoflor® Monolithic Cast In Place Underdrains
- Ferazur® and Mangazur® Iron and Manganese Biological Filtration
- Biofor® Biofiltration Process
- Meteor® Moving Bed Bioreactors (MBBR and IFAS)
- Ozonia® Ozone Generators

- UVSwift/ UVSwiftSC/ UVTORRENT Low and Medium Pressure Ultraviolet Disinfection for Drinking Water
- Trojan UV3000Plus/ UV3000PTP/ UV4000UV/ UVFIT/UV SIGNA Ultraviolet Disinfection for Wastewater
- Advanced Oxidation UV/H₂O₂ for Taste and Odor Removal, Algal Toxins (cyanobacteria) Destruction
- Salsnes Belt Filters for Primary Solids Separation and Removal

Partenaire
Technologies des eaux et procédés

- ZeeWeed® 500/ ZeeWeed® 1000/ ZeeWeed® 1500 Immersed and Pressurized Membranes Filtration Systems
- ZeeWeed® Membrane Bioreactors (MBR)
- ZeeLung® Membrane Aerated Biofilm Reactors (MABR)
- Monsal Advanced Anaerobic Digestion Systems

- Biolac® Fine Bubble Aeration Systems for facultative lagoons and extended aeration activated sludge processes
- DynaSand® Filters for tertiary filtration and phosphorous removal
- MaximOS® Sodium Hypochlorite and Mixed Oxidants On Site Generators
- RDT Rotating Drum Thickeners
- AquaGuard® and Helisieve® Perforated Type Fine Screens and Hycor® Rotating Drum Screens

- Filter Phoenix Underdrain and Panel Systems
- Phoenix Air Scour Systems and Backwash Troughs
- Phoenix Fixed-grid Air Scour System for Lamella Clarifiers

- Delta Blower Generation 5 Tri-Lobe Positive Displacement Blowers
- High Speed Turbo Blowers
- Delta Hybrid Rotary Lobe Compressor
- Biogas Blowers, Vacuum Pumps and Oil Free Screw Compressors

- Wastewater Fine Step Screens with 0,5 to 6 mm openings
- Washpress and Hygienic Bagging Systems
- Forced Vortex Grit Systems and Grit Screw Classifiers
- Septage Stations for Septic Sludge Screening
- Anaerobic Digesters and Mixing Systems
- Heat Exchangers
- Shaftless Screw Conveyors

- Chemical Odor Control Multistage Scrubbers
- Organic and Inorganic media Biofilters
- Activated Carbon Adsorption Towers
- Recov'ammonia™ Ammonia Recovery Systems and Recov'air® Energy Recovery Systems
- H₂S, NH₃, CO₂, and COV Stripping Systems

- Pneumatic Conveying
- Silos, Super Bags and Individual Bags Handling Systems
- Wet Cone Mixers and Ejectors (Lime, Activated Carbon, etc)
- Chemical Dry Feeders
- Dry Polymer Preparation Systems
- Sludge Screw Conveyors and Spreaders

- Multistage Centrifugal Blowers and Control Panels for Centrifugal Blowers

- Fine Bubble Diffusers, Disk or Tube type with EPDM, fEPDM or PTFE Membranes
- Coarse Band Diffusers
- Replacement Diffuser Membranes for most brands

- ValmetTS Inline Sludge Measurement Transmitters for Total Solids up to 40%
- Valmet DS Gravity Sludge Measurement Transmitters for Total Solids
- Valmet LS Filtrate Measurement Analyzers for Total Solids up to 5000 mg/l

- Westfalia Centrifuges for Sludge Thickening and Dewatering

- Rotary Lobe Pumps
- Multichoppers for Sludge and Grinders for Wastewater

- Ecoprocess SBR Sequencing Batch Reactors
- Atara and AirOmega Air Diffusers
- Oxijet Self Aspirating Aerators

- Mixers and Mixers/ Aerators
- Mixers for flocculation and Flash Mixers
- Mixing and Aeration Systems

- Lagoon Floating Baffles
- Clearwell Floating and Fixed Baffles

- Biomag and Comag Magnetite Processes
- Envirex Primary and Secondary Clarifiers
- Forty X® Disk Filters for Tertiary Treatment
- JetMix® Jet Mixing for Sludge
- Rex and Link Belt Traveling Water Screens
- Westates Granular and Powdered Activated Carbon

- Density Current Baffles and Dual Baffles for Secondary Clarifiers
- Launder Covers for Clarifiers
- Troughs, Weirs and Scum Baffles for Clarifiers

- ROTAMAT® RoSQ3 and RoS3 Screw Presses for Dewatering of Municipal and Industrial Sludges
- ROTAMAT® RoK 4 M Vertical Fine Screens for Pumping Stations
- RakeMax® MultiRake Bar Screens for Coarse and Fine Screening for Deep Channel
- ThermWin® Heat Recovery Systems from Wastewater

- Manual, Semiautomatic and Automatic Selfcleaning Filters

- HeadCell®, Grit King®, SlurryCup® and TeaCup® Free Vortex Grit Systems
- Free Vortex Combined Sewer Overflow Systems
- Screens for Combined Sewer Overflow Systems
- Vortex Drop Shaft Systems

- Screw Pumps for Installations in Concrete or Prefabricated Channels

- Piston Pumps for Dry Cake
- Live Bottom for Storage Silos and Hoppers
